

How to “**Activate**” your software:

1. Install the EnergyGauge software by following the onscreen instructions.
2. After the software is successfully installed, run the software by double clicking the shortcut which is placed on the desktop.
3. A “Key Required” dialog box will pop up.

4. Make sure that you have your “**Order Number**” with you, which you have received when you purchased the software.
5. **If you are connected to the internet:**
 - a. Enter your Order Number and click on “Get Activation Key”. The next window will show your Activation Key along with an “Activation Button”. Click on the “Activation Button” to activate your software.
6. **If you are not connected to the internet:**
 - a. Call EnergyGauge Technical Support Office at 321-638-1492 and give your Order Number and Install Code to the Support Specialist.
 - b. The Support Specialist will provide you with an “Activation Key”. Make sure to write down the key and keep it in a safe place.
 - c. Click on the link which says “If you already have an Activation Key and need to enter your key, click here”
 - d. Enter the “Order Number” and the “Key” into the “Enter Key” dialog box and click OK.
7. An activation confirmation dialog box will show up. Click OK to use the program.
