

EnergyGauge USA Version 6.106

RELEASE NOTES

GENERAL NEW FEATURES:

- None.

GENERAL BUG FIXES:

- The geothermal pump info drop down menu is no longer hidden from view.
- The block page should not crash when scrolling.

FLORIDA ENERGY CODE FIXES

- Fixed bug applying adjustment to water consumption when running code- should only apply for ratings.

IECC

- None.

HERS RATERS CHANGES AND OTHER FEATURES

- Infiltration and duct page tested by and test dates made more consistent
- On duct tab show % air leakage entry –can be used for tax credit
- New tax credit calculation – this version reverts to 13-001 whereby homes with conditioned basements may find easier compliance than under version 6.0 which used Pub 16-001. This version good for homes permitted until July 1, 2020.
- In order to just process tax credit for homes, there is a tax credit only registration.
- Format of year of inspection dates changed to four-digit year when bringing in older files.
- Verifier name no longer case sensitive
- Verifier name does not persist any more after project is deleted
- Tested By fields are now dropdown inputs that are populated from the Preferences > Verifiers page. **NOTE: All Raters with RTIN and Rating Field Inspectors with RFIIN must be entered in Preferences > Verifiers.**
- Catch error when running new home rating on project screen without selected climate zone
- Allow tax credit only calculation for house not tested for ducts or infiltration using defaults
- Fixed tax credit calculation when viewing the tax credit reference home

- Fixed volume on envelope leakage report to include attic volume when hatch is open
- Fixed case where tax credit reference home window area would be too small in some instances.
- COVID_19 test exception fields available on infiltration and duct leakage page when doing a confirmed rating. EGUSA can determine the default values based on the climate, or the rater can enter the builder 120-day average value.
- RESNET Disclosure Form has been updated to the RESNET COVID-19 REMOTE INSPECTION HOME ENERGY RATING Standard Disclosure.
